Latent view	5	4	4	3	2	3	3	4	4	4
KAAR Tech	5	3	4	3	4	4	2	4	4	4

Feedback	Action Points
Other than the mandatory internship, there are few industry projects. Students should be self-driven to acquire skills	1. Providing students with opportunity to work in Live Projects to gain industry wise experience Value added courses are introduced in every trimester as credit courses (but will not be counted for CGPA calculation)
Industry exposure can be improved	2. Planning to organize Industry Exposure webinars, Alumni interaction, and Virtual workshops. 3. Guidance and assistance to pursue industry relevant certifications. 4. Encouraging students to participate in corporate events and hackathons.
