ENVIRONMENT & ENERGY USAGE POLICY

Version Number: 1

Date: 01 August 2021

Thiagarajar School of Management focuses on energy utilisation in a way that lessens negative environmental effects. The institution, including all of its participants, is covered by the policy. Environmental and operational concerns are part of daily life at the college. Our commitment to the cause of resource preservation is responsible. The implementation of energy and environmental awareness to limit its impact and save natural resources usage.

This institution's numerous activities and all of its constituent parts must abide by this environment and energy policy, which also applies to all of its participants. It will assist us in implementing environmental awareness and efficiency to conserve natural resources and minimise their utilisation.

Scope:

The scope of this policy extends to the following areas:

- Energy Awareness
- Energy Audit
- Environment Audit

Objectives:

- To create awareness about energy usage and to make all management students as Energy Literates
- To conduct energy and environment audit periodically

Policy:

- To Reduce the use of natural resources.
- To look at alternate uses for natural resources.
- To Conduct the Energy Audit, Green Audit and Environment Audit
- To minimize the energy crisis
- To employ LED lighting systems in order to save energy
- To Conduct Environment and Green Audit
- To evaluate our energy use and gauge the effects it has on the environment

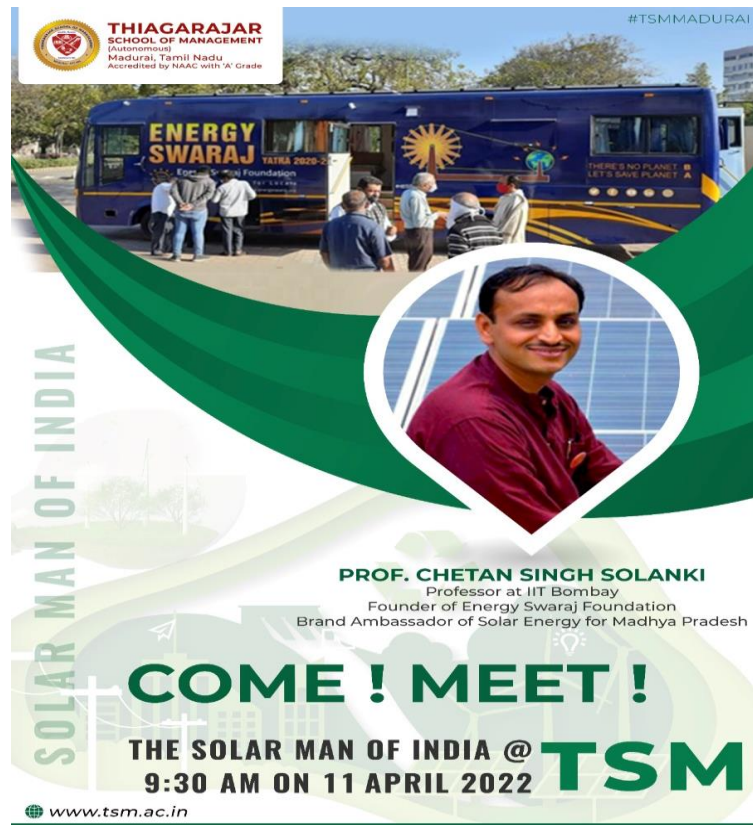

-
- To minimize air pollution in and around the college by using public transport or pollution-free means of transport such as bicycles
 - To create a successful waste management system
 - To build rainwater collecting pits and use them to collect rainfall.
 - To Promote Plantation programmes in the campus
 - To Secure Clean and Green Campus Recognitions/ Awards
 - To lower noise levels in the college to foster a calm learning environment
 - To promote beyond the campus environmental promotion activities.
 - To teach our staff and students how to use energy efficiently and safeguard the environment.
 - To raise awareness of sustainable development, environment conservation, and efficient energy use in the neighbourhood.
 - To reduce local air pollutant emissions, using environmentally friendly vehicles, such as bicycles, public transportation, and roadways that are hospitable to pedestrians
 - To give knowledge of and opportunity for training in energy-saving techniques
 - To provide opportunities for staff and students to participate in actions that promote environmental protection
 - To promote the adoption of cutting-edge technologies in order to reduce energy use, air emissions, and noise

Through internal channels, this policy will be distributed to the staff and students, and it will be posted on the institution's website for all parties to access. The Institution will routinely examine the Environment and Energy Policy's goals and targets.
