Attainment of Program Outcomes

Assessment tools and processes

The attainment of program outcomes are assessed using direct and indirect assessment tools. The direct assessment majorly involves the performance of the students in the courses that are contributing to a particular PO. Additionally, the performance of the students in the Comprehensive Viva Voce, Summer Internship Programme and Rural Development Immersion Programme are part of the direct assessment for evaluating the attainment of programme outcomes. The indirect assessment involves student exit surveys and employer surveys.

List of direct assessment tools

- Performance in the courses contributing to a PO. Following is the indicative list of assessment tools used to assess student performance in a course.
 - Mid-term exam
 - End-term exam
 - Group projects
 - Individual assignments
 - Book reviews
 - Quiz test
 - Class Participation
 - Attendance
 - Role Plays
 - Seminar Presentation
 - Lab Examinations
- Comprehensive Viva-Voce
- Summer Internship Programme
- Rural Development Immersion Programme

List of indirect assessment tools

- Student exit surveys
- Employer surveys

Direct Assessment of PO attainment

As noted earlier, the direct assessment majorly involves the performance of the students in the courses that are contributing to a particular PO. Additionally, the performance of the students in the Comprehensive Viva Voce, Summer Internship Programme and Rural Development Immersion Programme are part of the direct assessment.

The direct assessment for a particular PO attainment is calculated by taking the average of attainments in courses contributing to that particular PO, comprehensive viva voce, summer internship programme and rural development immersion programme.

The attainment levels are assigned as per the following rule:

Attainment Level 1: 60% students securing more than 60% of maximum marks.

Attainment Level 2: 70% students securing more than 60% of maximum marks.

Attainment Level 3: 80% students securing more than 60% of maximum marks.

The calculation of direct assessment attainment level is shown below. As a sample, we explain the calculation for PO1 for the year 2017-19.

For the year 2017-19, PO1 is mapped to 70 subjects including comprehensive viva voce, summer internship programme and rural development immersion programme.

The course attainment level in each of these 70 subjects is given below. How a course attainment level is calculated is given in detail in the next section.

Indirect Assessment

Indirect Assessment Tools used:

- **Student exit survey**

An exit interview is a survey conducted with an individual who is separating from an organization or relationship. Exit interviews in TSM are conducted with students who have graduated from our institution. These interviews are meant to gather information about students' experience while attending that institution, what they benefited from, what was missing, and what could be improved to enhance the experience of the next generation of students who attend the institution. This type of interview can also point to areas in which the institution should invest more or less resources to enhance a student's learning and development experience. This exit survey is conducted both at the end of first year and second year of the program.

As part of the whole set of survey questions, a set of 19 questions which are linked with each Program Outcomes is included. The students who participated in the exit survey are giving indirect feedback on achievement of Program Outcomes. Each question is scaled with 1-10, where 10 being highest and 1 being lowest. Mapping of Program Outcomes for each question in the student's feedback is given below

Exit Survey Question & PO Mapping

| # | Question | POs |

• **Recruiters feedback**

It is a process of gathering feedback from recruiters of students from TSM. It helps us in assessing our students who are placed in different organizations. The recruiters give feedback on various parameters related to student's domain knowledge as well as their communication, confidence and other soft skills required for successful tenure in that organization. It further helps us in finetuning our course structure and pedagogy to keep pace with changing demands of the employers.

The various parameters/criterion used for evaluation include:

- 1 Reporting of students on schedule
- 2 Students competence met my expectations
- 3 Students resumes were professional
- 4 Communication skills
- 5 Awareness about the company's profile
- 6 Student's etiquette
- 7 Confidence of the students
- 8 Logical and analytical reasoning
- 9 Domain knowledge
- 10 Learning from summer internship

Attainment of Course Outcomes

List of assessment processes

The assessment will comprise of continuous assessment (60%) and final examination (40%). The various assessment tools to measure student learnings and attainment of course outcomes are mentioned below:

- Mid-term exam
- End-term exam
- Group projects
- Individual assignments
- Quiz test
- Class Participation
- Attendance
- Role Plays
- Seminar Presentation
- Lab Examinations

The course facilitator designs the various course assessment tools in accordance with the institution guidelines and performs continuous assessment of students as per the assessment rubrics.

The course facilitator also prepares the end-term question paper for his respective courses and submits to controller of examination well in advance.

Example:

Course: Managerial Cost Accounting (II Trimester : 2020 – 2022)

This course Psychology at Work has the following evaluation components.

Psychology at Work Evaluation Component

| Evaluation parameter | Descriptions | Marks |
|-------------------------|--|-------|
| Classroom participation | Students will be assigned pre-reading materials and cases, students who contribute to class discussions regularly will be awarded marks. This will help peer learning | 10 |
| Quiz | MCQ based quiz through LMS Software Moodle will be conducted covering overall syllabus to test the remembrance and understanding skill of the students. | 10 |
| Assignment | To test the problem solving skill of the students excel based assignment questions for each module will be conducted. Students will be given two days time to solve and submit the answer through LMS Software Moodle. Average marks of all the assignments will be considered | 15 |

| Total marks | | 100 |

Attainment of course outcomes

The attainment of course outcomes is calculated from both continuous assessment (60%) and end-term assessment (40%). Attainment is measured in terms of actual percentage of students getting set percentage of marks.

The attainment levels are assigned as per the following rule:

Attainment Level 1: 60% students securing more than 60% of maximum marks.

Attainment Level 2: 70% students securing more than 60% of maximum marks.

Attainment Level 3: 80% students securing more than 60% of maximum marks.

The attainment of course outcome is calculated as below.

Example:

Course: Psychology at Work (IV Trimester, 2017-19)

This course has following evaluation components.

| Component | Weightage |
|---------------------|------------------|
| Class Participation | 10 |
| Quiz | 10 |
| Assignment | 10 |
| Midterm | 25 |
| Endterm | 40 |
| Total | 100 |

The course outcome attainment is calculated for each of the evaluation components

Course attainment for CA

| | Class Participation (10) | Quiz (15) | Assignment (10) | Mid Term (25) |
|---|---------------------------------|------------------|------------------------|----------------------|
| Number of Students scoring more than 60% of marks | 106 | 116 | 120 | 118 |
| Percentage of Students Scoring more than 60% of Marks | 88.33% | 96.67% | 100% | 98.33% |
| CO Attainment for individual components | 3 | 3 | 3 | 3 |

Total number of students in the course is 120

$$\text{CO attainment (CA)} = (0.10 \times 3 + 0.15 \times 3 + 0.10 \times 3 + 0.25 \times 3) / 0.6 = 3.0$$

Course attainment for End Term

| | End Term (40) |
|---|----------------------|
| Number of Students scoring more than 60% of marks | 98 |
| Percentage of Students Scoring more than 60% of Marks | 81.67% |
| CO Attainment for Endterm | 3 |

$$\text{Final CO attainment} = 0.5 \times 3 + 0.5 \times 3 = 3$$
